

## Description

The Cueva de la Serreta is located in the municipality of Cieza, in the region of Murcia (Spain). It is a cave located in one of the walls of the spectacular Almadenes Canyon, at the bottom of which the Segura River runs. Inside there are some paintings of Post-Palaeolithic Rock Art. In this panel some human and animal figures are shown. At least two human figures appear to carry a bow with arrows in their hands. These paintings were declared World Heritage by UNESCO in 1998.

We want to thank Joaquín Salmerón, Director of the Cieza City Council's Historical Heritage Service, for the facilities he has given us and for his cooperation.

3D model was made in Reality Capture software using 162 images. Additional processing was completed in D-Stretch, Geomagic Wrap, Zbrush, Blender, and Substance Painter.
