

## Description

The Lower Agora and Roman Baths of Sagalassos, SW-Turkey. Like the Upper Agora, the smaller Lower Agora of Sagalassos was paved during the 1st c. CE. During the better part of the 2nd c. CE, a massive bathing complex was constructed immediately east of this square. Model was processed in Reality Capture from 4451 Drone photographs.

The data were collected by Global Digital Heritage in August 2019, as part of the University of Leuven Sagalassos Archaeological Research Project and supported by the Global Heritage Fund.
