

## Description

Jabal Al-Emaileh is a site located approximately 15km south of Mleiha, Sharjah that consists of four stone funeary structures including Tomb I. Excavations into Tomb I were completed in 1993 and revealed fragmentary human bone, well-preserved human skulls, thousands of beads, a feeding shell, a shell necklace, and ceramics. Ceramics associatd with the tomb date c. 2600 &#8211; 2400 B.C. A later intrusive burial (pre-Islamic) was also encountered and was accompanied by an iron sword.

The model was made in Reality Capture software using photogrammetry and laser scan data captured with a FARO Focus3D S70. Additional model processing was completed in Geomagic and Instantmeshes
