

## Description

The ancient Islamic city of Siyasa or Medina Siyâsa is located in Cieza (Murcia, Spain). It is one of the best preserved medieval sites from the Islamic period in Europe. The Siyasa Cemetery is located at one end of the city on a small promontory. Much of the cemetery is located within the walled compound. The burials follow the Islamic rite so that the body of the deceased is placed on its side with the face facing Mecca. Furthermore, the graves lack funerary objects.

This model was created in RealityCapture software using 187 images captured with a DJI Phantom 4 drone.

## Specifications

**Country:** Spain

**Region:** Murcia

**Age:** Medieval

**Internal ID:** Siyasa\_Necropolis\_Model\_14

**Digitization date:** 8/02/2018

**Digitization method:** Photogrammetry

**Photos / scans number:** 187

**Hardware:** DJI Phantom 4 Pro

**Lens:** 24 mm

**Technician:** Miguel Ángel Hervás

**Postprocessing:** Bart McLeod and Jeff Du Vernay
